Response to Amendment

1. This action is responsive to amendments and REMARKS received on August 18, 2004.

Reasons for Allowance

2. Claims 1-20 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The invention relates to handling of unexpected scheduling interruptions in data transmission between a RLC layer and a MAC layer. The cited art of record, Johansson et al (US 6,473,399) and 3PGG, MAC Protocol Specification, singularly or in combination, fails to disclose the amended method steps of "submitting, by the RLC layer, to the MAC layer, an appropriate number of substitute protocol data units (PDUs) that are not control PDUs in place of discarded on interrupted service data units (SDU) data (claims 1, 4, 8, 11, 17) and postponing the interruption or discarding of SDU data until the RLC layer submits a requested number of PDUs to the MAC layer (claim 15)".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
